"NEWS"

W5UX had QSO with CE3AX on January 5 and reports that Luis is all set to go to CE3/2A on January 25th if the Navy does not change his plans.Says "mostly CW on 14,030kc!". DE-W5UX

*

In a letter from OA4UX (HC8LDX) Paul sent a list of 73 members that he had worked asking for a DX Ranger Certificate.He tells me that of this number there were 25 who did not QSL him.Fellows,if you need his card,send him a S.A.S.E. to 3741 6th Street,Winona,Minn. DE-W5VU

*

12/30-Heard JA3UI calling VS5AT on 14060 @ 1400GMT.Think I heard the VS5 but a W6 blocked the frequency working a UM8.
1/3 -Heard KAEW tell W2OAA,"USSR Fone Contest on 18th January 0500Z till 1100Z." DE-WA1YV

*

Bob,W8VDJ,ask me to pass on word that he would be in Dominica five or six more weeks.10,15,20 and 40 meter bands.Bob showed Sunday night,Jan.4th, with Danny,VP2LW.
HV1CN came on without WC for a few minutes(1/6/59--0610Z-0620Z) working three stations with good english.
VQ1EPR on around the clock 10-15-20 mostly 20 and heard here much of the time.From 1 to 7kc outside 14,300kc. DE-W5VU

*

W5YEO shipped 500 QSL's to VP2MX(W8VDJ) by airmail Tuesday.QSL via VP2MX until Bob gets back to the states then to his home address.

*

Word note from Dave Hart,ZD8AF,Tristan Da Cunha,advising he gets on 14mc. CW from 1700 to 1800 GMT on Tuesday and Friday and on days when he has time from 0730Z to 0800Z.He did not specify the freq. but when I worked him several months ago he was around 14070-075kc. DE-K2GFQ

*

From Bill Orr,3A2AF in Monaco.The HT-32 and SX-101 from Hallicrafters arrived in good shape about the first of December.With the help of 3A2AH the equipment was installed at the hotel and the results have been outstanding.The band opens like clockwork at 1300Z and closes about 1430Z.My operation is usually around 21420kc on SSB and 21010 to 21040 on CW.My operating hours are usually 0700Z to 0800Z on 14mc. then 1230Z to 1400Z on 21mc. and 1400Z to 1600Z on 14mc again.CW operation is usually 20 to 40 kc. from the low edge of 14 and 21mc., and SSB near 14310 and 21420kc.The operating frequencies are chosen to avoid harmonics of Radio Monte-Carlo,parasitics from other services and Russian "jammers".
"Tentatively,I'll be off the air from December 27th until January 15th while I take my family for a trip to Italy. From "DX" by W4KVX

*

Danny is leaving Lucia Monday and will be on St.Vincent in 3 to 4 days. DE-W5KEU

*

Scott Dunling,VK3KB the sole amateur representative of this rare DXCC country,returns to Australia in February.He is currently putting a fair signal into the US on both long and short paths on 14308 and 14318 kc.He plans to be on daily 2330Z and 1130Z thru January.DE-"DX"

French Togoland-Paul Stein,9G1CX(ex VQ4EO et al) and 9G1CF still plan to operate from French Togoland,ED8,on January 10th and 11th,on 14 and 21 mc. SSBonly using a KWM-1 loaned by W2KUV.They plan to operate 21mc. mostly,until that band goes dead and then QSY to 14mc.Since their KWM-1 has no DX Adapter the retuning technic of operation will be necessary.On 21mc. call them 10kc up or down.On 14mc. they will operate just above 14300kc.They may be able to use Paul's old call, [illegible] 5Z3 [illegible],QSL's for this expedition go to the Central Jersey DX Club. [illegible] -Joe[illegible]The gave me the following info in a recent QSO,His direct mail QTH is :Saint Thomas Island,Portugese West Africa.
As [illegible] he seems to be attempting to get a QSL manager in each of our call areas,He asked if I would handle the W7 cards.
He says he usually gets on the 14mc band at [illegible] and often operates later in the day at 260%.He could appreciate help on the following [illegible] which he needs for WAC,Mont.,Nev.,Utah,Wash,Wyo.,Ariz.

From "TIP-OFF" published by The DX Club of St.Louis:HZ1AB has been very active on 20 CW and passes along the following info.Wednesday and Thursday nights are the best times to catch him.He is on all the way up to 0700Z.Other days he has only 1/2 hour to operate.He also keeps a black-list of stations that clobber him in QSO and those that call right on his frequency.His name is Bud and he will be there for at least another year.Favorite freq. are 14020 and 14325.

It looks like the Juan Fernandez DX-pedition by CE3AG and company will be delayed until around the 20th of January due to transportation difficulty.Call signs will be CE0ZA and ZB.

"NEWS"

Late news on the AC's.

Received air-letters from "Shankar"(correct name)AC4AX,tells me that AC3SQ is now in AC5-land and is second operator at AC5TW.The AC5TW now heard is legit.AC4AC is now in AC3-land but Shankar does not say if he is active.Will have more info on that later.He is 350 miles from Lhasa,near India.Shankar is the only AC4 in Tibet.AC4AX has no cards printed and he would appreciate someone sending him some cards.He also needs some radio magazines and engineers handbook. DE-K2OAH
(Anyone wishing to send Shankar a handbook,QSL's or radio magazines contact Ben,K2OAH to prevent duplications.)

WØGUV reports that he has info on two new Russian Awards,R-6-K and R-150-C issued by the Central Radio Club.He will be glad to forward photocopies of the rules to interested parties upon receipt of S.A.S.E. (We hopes this includes KG1XC since this was taken from "TIP-OFF" published by the DX Club of St-Louis.If GJV will send us a copy we will print it in this Bulletin.ed)
CE9ØZA-B-C is on the air and very active.Will be on Juan Fernandez for appox. 20 days as of 1-26.CE3AG says that they will work everyone that needs the country,so don't get impatient in the pile-ups.CW freqs. are 21030 and 14030,usually call at least 10 kc up.Fone freqs.14240 and 21230.QSL by CE3AG.
VS5JA supposed to be on the air on 14060 around 1100Z according to an OA4 in QSO setting up a sked for a NK.
VE9QM has been intermittently active from Cocos on 14060 around 2300Z. Quite a few of the east coast boys have been heard calling him but he apparently does not have much of a signal here in,the Mid-west.
From "TIP-OFF" DX Club of St Louis.

W5OOS,Glenn,overheard KV4AA,Sep.morning say first reports of Danny having broken leg were false."However he did have his foot in wrench but was still providing anyone.He said YA3BE ran aground on UNION Island and was stuck.Had a hole in her but it was above water line A motor launch was standing by to pull her off that day.Danny had unloaded all the gear.Glenn said trip to Bronaia would probably be delayed a month or so.

ZC3AC QSL's are coming thru again.W5GYI and W5YYV got one.

SS2MI,Jim, reports his operating time very limited due to shortage of diesel fuel.However he does occasionally appear between 0445 Z and 0545 Z unually on Sundays on 20 Fone.
Don of VS9MA leaves the Maldives this month.
Revd QSL's from ZC3AC & FF8AC/gn. DE-W4QCW

VQ6LQ has been off the air since last May.He is looking for S.Dak for WAS.(Attn WA5IYV)W5UNO WAS QSL manager for VQ6LQ-WA7 [illegible]-W5NW

Heard XE6DP tell W3UXM that SM5WN/LA/1 was QRV on 14090 or 14107 at 0800 Z. DE-W5BUX

VE7DE says he is looking for Oman,Ariz,Wyo and N.Ireland. DE-W5KU

ZB2A/VP9 Bob,apparently uses the Amer flag as VP9OM-3 white and is in the RAF on temporary duty in CHANT he said he would air be soon from Gibraltar.Cars go to the home QTH at ZB2A or via R3GB. DE-K2GFQ

I have heard VS9OM about 3 days this week.He has been coming on around 2000 Z.His signal is not too good at my QTH.He peaks at about 559 here.Most W1,2,3 give him 579,but he just aint that strong here. DE-W4LIV

W4IFN,Warren,ran into a news item in "Electronics Week",a business paper.They had a item on Rock Electric Co. of Chicago landing a contract for telephone system and a 10' radio set for Mt.Afinne one of the Rock men is a ham.Last week this mag.in Rock looks like a good chance to see some real work from that area.Don't know who of the gang could push or find out about this but feel like a deal like Danny's might be worked out.I have a good friend with the Rock,he wrote to find out there not and he really be happy to assist if could provide something definate on a Ham going over there.(If you would like to see activity from Nepal and can help get this thing started contact W4IFN-ED) DE-W4IFN

[illegible] 3/4/59.It seems that he works in UNION ISLAND,Texas probably lost as necessary help is NOT available.
All that [illegible] is concerned as "carry-on" [illegible] business affairs [illegible] will go on as [illegible] hospitals [illegible].

The station that is at last verified but [illegible] had previously refused to QSL.
[illegible] is in the hospital for an operation and should be home in one weeks.At that time the cards will be on their way. DE-W7PHO

Wanted:present QTH of Cesar Gonzales Yague,EA9CW,for QSL--QSO of April 14,1954.This was a big DX contact. DE-[illegible]

Lionel,VE3LE,will be on for the last time on [illegible] in the M. of C. in the band around 14,275-80.
Post issues from LTAAF,Rt [illegible] Bay,[illegible],Del. Vlamis will be on 14,240 [illegible] during QV part of QC contest,he also he is 800 or 900 miles [illegible] to 1 mm going to need the [illegible]. DE-[illegible]

From "DXY" Magazine by WA4VZ.
[illegible] Island.Here's one for the books,reported to us apparently in dead earnestness by [illegible],Idaho,[illegible],the writer of a new Stn., TF3AA,"The operator that is Ian Sadlinger,and he is a native living on the island of Spitzbergen,located in the [illegible] part of the Pacific Ocean,Helios Spain,I had never heard of that island before but I guess it is true because I received a QSL from him,direct,with Motorfordom stamps!"
I worked him on 14.0[illegible] on [illegible] at [illegible] left and found only 300 continue [illegible]. His receiving was 100 watts,home made,receiver also home made and he used a 20 meter dipole antenna.His QSL arrived in 43 days and he asked me to send my card to [illegible] TF3AA,for [illegible] TF3AA is perhaps the [illegible] I heard or [illegible] when I finished the QSO.This island is a free state not belonging to any empire."
CQ DX[illegible] KA4ZB,Jayne Green announced this week the FCC has issued the calls [illegible] and KS4AA to him and [illegible] for a DX pedition to the C[illegible] [illegible] the [illegible] KSAPA is issued for RONCADOR KEY and [illegible] for the SERRANA BANK,the former a small island and the latter [illegible] shoal,located in the Caribbean Sea off the east coast of Nicaragua. [illegible] has been worked by Amateur Radio and it is believed they qualify for separate DXCC country status by virtue of their distance from Swan Island and original KS4 prefix. The FCC license and calls are good until July first.
"We are still trying to determine the best way to reach the islands," writes Jayne,"We suggested flying to [illegible] Honduras [illegible] boats go from St.Andrew up to Serrana Bank,etc.
Although the expedition is planned to include six or eight operators only three,W2NSD,W2AVT and [illegible] are definitely signed up for the

More from DX Magazine.Mike,II1BFC announced that he plans to operate from San Marino during either late Feb. or early March,on SSB,for what should be the first SSB operation from that country.Operation will be on about 28650 kc and on 14 mc,the call will probably be II1BFC/M1 and the equipment will be a KWM-1.

Humberto,TI2HP and Martin,VE3MR will operate from Cocos Island.Present plans call for them to take two KWM-1's.One will be used for SSB and the other for CW.The call letters will be TI9SB and TI9CW.The calls designate the mode of transmission.Antennas to be used are a HY-Gain two element tri-bander and Hy-Gain three band vertical.The length of stay will be approximately one week.In a letter to the editors,Martin says,"It was our intention to leave from Costa Rica sometime during the first week in April.I understand the boat tripwill take about 36 hours each way.However,since this is mainly a SSB expedition(no AM operation is planned) and since CQ is having it's SSB DX Contest the weekend of April 18th,we might put off the sailing so that we are on the island for that weekend.The present thinking is that there would be more SSB stations on and we could work the bulk of them on the one week end.On the other side of the picture there wouldbe a lot more QRM above 14,300 on the 20 meter band.By the way the 20 meter frequencies to be used will be 14303 KC.,14306,14309,14312,14315,14318,14321,depending on how bad the QRM is.Of course on 10 and 15 meters all stations will have to zero beat our frequency.The 20 meter CW operation might be the same as the 10 and 15 meter SSB operation.I do not know if a DX adaptor will be available with this rig.It is my intention after returning to Costa Rica to continue on to Aruba or Curacao(the call PJ5CC is in the process of being issued).Then down to Caracas to visit with some YV friends."Martin goes on to say that he has unofficial confirmation that they would issue him a licence from both Dutch and British Guiana. From PJ5 and the Guiana's,only SSB will be used as Martin will be doing all the operating himself. DE-VE3MR

From W7PHO and others comes news of a possible DX-pedition to TONGA, VR5 with a little ZK2 and ZM6 operation thrown in.Following is the latest information on the trip from W7PHO.

Win,ZL3DX has already made reservations and licence application.He was told in a telegram from Tonga that they would issue him a licence, to operate from there and they do have 230 VAC power.He is leaving Auckland May 12 and will arrive Apia,Samoa on May 15.He will be there 2 or 3 days and will operate from there.(ZM6).He arrives Tonga May 19 and will operate until May 26 or 27.This gives him one full week there which is enough.There is also a possibility that he will operate from ZK2 for either one or 2 days.Now,this gives at least two new countries for the SSB boys and definitely a new country in VR5 for many hundreds of hams.Bill,ZK1BS,is helping from the Cook Islands and ZL1RA is helping from VK and ZL.Frequency of operation will be announced latear and 10 15 and 20 meters will be used.It is hoped that he can pick up a tri-band beam in VR2 land.

They are asking all to send their donation to KALMM with a S.A.S.E.These will get prompt service and to the donors there is a chance that they may take the layover the air when Win gets back to New Zealand to hurry these cards to the donors.All other cards,regardless of a S.A.S. will go via the Bureaus and will be made out at the convenience of the boys handling the cards.I believe this is only fair and the way it has to be to raise $450.00 .If the deal falls through all the money will be returned.(Bill,W7PHO plans to contact all the DX Clubs in an all out effort to make this trip possible.)If you are interested we urge to to contact KALMM soon so they will know how they stand.-ED)

From SM5FWK,QSL manager for SM5WM/LA/P in Spitzbergen.Curt gives us the some interesting information about Ivar."Since there is no possibility of sending mail in either direction until summer,we receive logs via Ham radio once a week(if condx OK).This system works OK and I usually have his log here 5-10 days after the QSO's.He has worked about 1000 QSO's so far,from Sept-58, and most of them are W's.He will stay there until the end of the summer.Date not known yet.He is QRV on 7,14 and 21 MC. CW and Fone.Fone on request.He keeps fone skeds with SM5NZ and others to talk with his wife and children here in Sthlm.His QTH is at Murchinson Bay,East side of Spitzbergen.Ivar is connected with the IGY and due to this his operating time is somewhat limited.He is very interested in award-hunting and hopes to make WAS,etc,before he must QRT.(Curt enclosed his application for our Ranger Award with over 35 members contacted-ed).At present he needs Ark.,Wyo.,N.Dak.,S Dak., Idaho,Utah and Maine.QSL's arriving here will be promptly answered.If 1 IRC is enclosed,QSL goes direct surface mail,for air mail I need 3 IRC's.Mint US stamps also accepted since I am a stamp collector.QSL with no IRC's goes via the bureaus.
(SM5AHK wants to know how to contact W5RVV who was VP5RF at Turks in 1956,for a much needed QSL.-ed) DE-SM5AHK.

Following is a letter from W7PHO."TONGA--With the help of ZK1bz,Win, ZL3DX has applied for the call of ZK2AC and VR2AC for Samoa.Win has also written the authorities at Tonga asking for the call of VR5AC. Win reports that things are progressing nicely for the trip and he has been assured of a RW4-1 and Ted Henry is getting a DX adapter for him. Andy of Hi-Gain beams is furnishing the beam.However all of these plans are going "down the drain"unless donations start going to KALNM at greater speed.

//////////

CR10 and XM7--We have been asked repeatedly if we could help to get something fired up from these two rare spots.As you know a gas generator was delivered to the present CR10AA to get him going but to no avail. IF PRESENT PLANS GO THROUGH,A STATION WILL BE ON FROM PORT.TIMOR FOR A PERIOD OF ONE WEEK.HE WILL RUN 100 WATTS CW AND AM ON 10-15-20. Although we will have all the details within two weeks,they will not be released until the VR5 situation is safely substituted.The CR10 stn may be on before Win leaves for SUVA.It will be announced thru the DX Bulletins .We think that we can assure all,that unless the fellow leaves those sorely parts,he should be on within three months."DE-W7PHO.

A note on the back of W5KBU's latest envelope from the W5 Bureau says that Bob Stark,W5OIG will turn over the QSL Bureau to Brad,W5ADZ sometime in April.Bob deserves the highest of praise for his excellent work on the bureau,a job that takes a great deal of work and we certainly don't envy W5ADZ. (over)

[illegible] that he might be talked into taking the WCDXC Bulletin next year. [illegible] for [illegible] publication. If there is any YL that is interested in taking over this Bulletin, I invite him to [illegible] Get Mrs Cole with the coming National QSO, at Galveston and we dont want the Bulletin to die for lack of an Editor.

Bill,W7FHO just received a letter from the guy that going to CR10 soon. Here's part of it:"I have arranged for free air fares both ways for myself and also for----who has kindly offered to come with me to help out with the heavy traffic which would be encountered.We are both commercial operators so should have no difficulty handling plenty of CW contacts.
We will both be able to stay in CR10 a maximum of 14 days.I have written to the Portuguese authorities requesting permission to operate from Timor and at present the expedition should cost very little except the stay in Timor and QSL's.
The next item we will have to discuss is equipment.Taking everything into consideration I do think the gear we can make up here is good enough or portable enough for what we have in mind.If we could borrow a KWM-1 or Norrow RX and TX or a Gonset RX and TX.Both myself and ---- think this would be the best approach to the problem if some good efficient gear could be made available to enable us to handle a lot of QSO'n without having to worry about breakdowns.They now have 240 and 110 volts at Timor so a suitable 240-110 transformer would be used. By the time I write you again I will know if permission will be granted by the Portuguese authorities so until out next QSO 73 and lots of luck..

"NEWS"

[illegible] says that [illegible](Tromelin-/?)did show up on 14167½ KC. last week-end at 0400 Z.
[illegible],Tom has been named QSL manager for CR6AC(VR2AP expedition-May 28).Although
VR2AP made only 2 for QSO's-QSL's have been hard to obtain and [illegible]AD received a cable
saying the logs were mailed to him.
[illegible] has received about $175.00 for,the TN5 expedition.He still owes about $250.00
and the contributions are coming in pretty slow now says Randy.His address is listed
under QTH's. DE-K4LNM/W4DQH

[illegible]-Serrana Bank expedition,[illegible],W[illegible]KVX,W3P[illegible] will leave Cincinnati Wednesday noon
March 11 and will arrive HL-land at 2000 GMT Thursday.There they will pickup [illegible]
and possible TI4CD and KW4DLF.Their boat,the Rose-Mar will sail that evening and after
a 10 hour cruise they should arrive Serrana Bank early Friday morning March 13th.
They hope to be on the air Friday afternoon(local time) and plan to be on the air
full five days,probably shutting down Wednesday or Thursday,March 18 or 19.
They will use two complete 20A/800L stations,Two small AC generators,one 250 watt,the other
750 watt will be provided with the boat out of Bluefield,Nicaragua.
On both phone and CW,especially during good propagation conditions and pileups we hope
to use the FDNDZ system of multiple QSO operating .Please give us complete calls,insert
our AS or RST report in the middle,and please limit your call to one or two ,to each
of our transmissions.Please don't call us continually,but give us time and opportunity
to select the station and do our logging.With that co-operation we'll work every signal
we hear,weak or strong,DX or local--we promise "says WA4KVX in his "DX" magazine.
QSL's go to Don Chesser,WA4KVX,RFD #1,Burlington,Kentucky or
Joe Schroeder,W9JUV,1350 Ashland,Milwaukee,Illinois -replace a S.A.S.E..
WA4KVX says there will be no donation or financial assistance campaign connected with
the expedition or the QSL's.
As an aid to finding the stations Don,WA4KVX gives the following chart.

1600 to 1800 Z-28050 CW,28550 AM or 28650 SSB
1800 to 2000 Z-21050 CW,21260 AM,or 21425 SSB
2000 to 2200 Z-28050 CW,28550 AM,or 28650 SSB
2200 to 2400 Z-21050 CW,21260 AM,or 21425 SSB
0000 to 0200 Z-14050 CW,14250 AM,or 14280 SSB
0200 to 0400 Z-7010 CW,or 7210 or 7290 AM or SSB
0400 to 0600 Z-3510 CW or 3810 AM or SSB
0600 to 0800 Z-7010 CW,or 7210 or 7290 AM or SSB
0800 to 1000 Z-14050 CW,14250 AM,or 14280 SSB
1000 to 1600 Z-No schedules--general operating,any band,any frequency where
DX and W/K/VE stations can be found and worked.

It should be remembered we'll have two stations operating simultaneously and that only
one will attempt to change the above band.The above frequencies may vary as much as
50kc plus or minus to avoid QRM.Each station will periodally announce the frequency
and mode of the other station and will announce as far in advance as possible an impending
change of band or mode. DE-WA4KVX in "DX".

[illegible] from "DX":MP4BBW plans to operate from Trucial Oman on SSB about April 11th,after
which he may continue on down to Sultana of Oman,possibly including the free territory
of the peninsula not covered by DX99.
[illegible] Gerry's SSB rig is due to arrive at VS9OM at any time.

VS6DJ says Denny will open up from Grenada about March 25.

*

HB9FV reports that he will be operating as HB1FV/VS which is the canton of Valais in the HV-22 contest which starts on 1500Z 4/4 to 1900Z 4/5.

JA5AI reports that AC4AX operates around 15050 in addition to his other frequency around 14100. Also that he has heard W6's calling AC3SQ on about 14080. DE-"TIP-OFF"

*

VQ8AD is reported active on 21mc. fone and he has regular skeds with FR7ZC on 7030kc CW!
OZ7FG,F. Gotschalk, 3 Engdraget,Grenaa,Denmark,tells us that he will be handling the QSL's for LA2JE/P whose log has been revd over the air. A backlog of 800 contacts has been cleared.All that is needed is an s addressed envelope and an IRC.There is no boat to Kopen Isle until next August. DE-DX Commentary/SW Mag.By G6QB

*

As you should know by this time,the boys finally made it to Serrano Bank(KS4BB).Reports have been coming in from all bands.10,15 and 20 SSB and CW.They reported 3/24 that they would leave 3/26 so it's all history now.QSL's for Fone contacts go to W9JUV.CW QSO's go to W4KVX.

*

Bob SV0WT advises he just revd a fresh batch of QSL's. DE-W5VU

QSLV cards from W4TTO last nite I was informed that FT2US will operate from French Guilliand(FT8) for one week starting APRIL 20th or 21st. Operation on SSB and CW I.

As you probably know Hobby,VE1ERR,has a DX-pedition all set for the Seychelles in August.Arrangements and reservations have been made so I will accompany Hobby on this one.Am looking forward to a real adventure on this one.On the return from VQ9 I may be able to make another real good one.It's too early yet to say for sure on this but will keep you informed.

Also arrangements are now being made for WØUQV to operate from San Marino during the middle of July.This will be CW and SSB." DE-WØAIW(Tks a lot Jim

DX News from W4QCW

Paul FR7ZM has returned to France for one month due to death of his father VQ8CB will come back to Anjouan in May and will have power more readily available there.

ZL2AP has returned to Tristan Da Cunha and is reported to be active on 14185 between 18 and 21Z on Sundays.ZD9AF continues to operate occasionall between 16-20Z mostly on 10 and 15 meters.

LA3OF continues to work on plans for trip to IFNI which he hopes to take in July of this year.

VE3MY now has an operating schedule.He is supposed to be active on Tuesdays between 0630Z and 1230Z with time off from 10 to 11Z.His freq. will be 14310-320 SSB and he may also occasionally show some times and freq on Thursdays and Fridays when time permits.

VE3JA will be active only every third week (on AM and CW) as his job keeps him out of town. DE-W4QCW

From VK5AB

Please advise members that I am now QSL manager for the present stations operating in JZØ land.I was QSL manager for JZØPB and JZØPC.Can still clear any cards not received from them,but I have no cards for the present JZØPB.

Also I am now handling all foreign cards for Stan,VK9AD.Cards can be sent to [illegible] Cards will be returned under the usual conditions. All "W" cards must go direct to Stan,VK9AD on Norfolk Island.

[illegible] should be back on phone any day now with a DSB transmitter. It has been held up with the usual customs troubles which we have out here.

Would like to work FL8AB and does anyone have the QSL address of SVØWL? (Bram,I understand FL8AB has been in France for,over a year now but be on the lookout for FT2US mentioned above.-DE-ED.) From VK5AB

Jimmy, JA9WH, now in Karachi (AP) has had his license application approved. The call sign has not been issued but he is assembling a beam and has the Filipinos hot-lopes so get AP2H or AP2JH but will accept XYZ if they want it that way. Jimmy has a list of all licensed AP's and I have asked for a copy that help to weed out the phonys. DL-W4AME

Permission has been granted by the authorities in ZD8CA to permit Win to land and operate as VR2AC. They have given him a promise of accomodations while on the island. Win has also been assigned the call of ZK2AC for Samoa and he will operate from NIUE as ZL3DA/ZK2. Win is leaving New Zealand two days earlier than planned so that he will have longer time to get the equipment together and out of customs in Fiji. HY-GAIN constructed him a special two element three band beam complete with a thirty foot telescoping mast, nylon guy ropes and 120 feet of coax cable. HY-GAIN donated all of this and shipped it to Fiji!! The equipment will consist of a KM-1 with the DX-adapter and a Drake receiver. Frequencies of his operation have not been determined as yet but should appear in the next bulletin. He will be on from ZD8AC for FOUR(4) days, VK5AC for SIX(6) days and ZK2 for ONE(1) day. DL-W7PHO

DL7AA told me Sunday 4/12 that he had a QSO with YA1TW on 21195 at 1300 GMT. Son that YA1TW runs 60 watts to a dipole and works only 15. Son that YA1RD works only 10 meters with about 3 watts. Claims that YA1TW is W6DXT. DL-W7PHO.

Danny's transportation to VP4 sank!
Talked to ZS1CP again and he said that NG4 delayed again by Navy. W6RKP sent him coax switch. He says they will be there in two to four weeks. DL-W4IFN

PA3BW has been issued the calls PI4TAH and PI4CIK ! DL-W4QCW

--- someone please give me the QTH of SV0WI ? DL-W0CDW

--- a anyone know anything about a 4W1A being on? DL-W5CEW

VK2ID is on from Tarawa, Gilbert Islands and is on as VK2TB. He operated for a short period as VR2BY (Nauru). He has had less than 100 QSO's since starting operation, but will be there for two weeks and will likely be found on or about 14000 around 11-13 GMT usually working Trans-Pacs. He's log over the air to VK2ZQ who mails the QSL's.
Some of the KH2US gang will go to Nauru from April 17 to May 2.

[illegible] near Kandahar near the Pakis[illegible] 0-50 receiver and running 60 watt[illegible] 0-77 [illegible] 40 [illegible] high.He is changing [illegible] in Afghanistan for 6 months and [illegible] quite [illegible] 33 days.He says the reason [illegible] "not classified,but is a business secret".All he will say is that the [illegible] "electronic" and that it involves taking a lot of aerial [illegible] QSL manager in the states is W6DMI.
[illegible] ble that Bob,KP4BCC can help arrange with Col for a sked.
[illegible]

Following is part of a transmission from MP4BBC transcribed from tape recording during QSO with W2ZX on 21MC. AM fone April 25 at 2030 GMT.

[illegible] either Cal or Paul up there. There are three operators [illegible] at the present time, YA1LM, YA1PB and YA1TD. The latter [illegible] will not be operative for about another three weeks. The other two, Cal and Paul are operating at the present time. One of the problems [illegible] at the present moment is to get a transmitter to put Afghanistan on SSB. Now I think it can be done, and operation 'search party' is in progress to get one, so you might verry very shortly hear Afghanistan on the air on SSB. I understand also that when it's time to leave there, they will have three more operators and possibly a couple of ART-13's. Cal usually operates [illegible] and gives all a chance without [illegible] the American fone band too crowded, with all the people calling.

Now the situation is that the fellows concerned in this other deal-I have met them all. One is MP4BBW. The other is MP4DAA on Das Island and Trucial Oman, and [illegible] is located at Sharjah in Trucial Oman. [illegible] has been on leave for [illegible] a very short time he should be on 21MC. MP4TAC has been operating from Trucial Oman but is on a short vacation to the United States, and when he comes back we have talked the situation over with him and there was a station, two stations as a matter of fact, one on the ? oasis in Oman and the other one 60 miles [illegible] of Oman territory. He has a mobile station there which he goes [illegible] and keeps everything else on the two stations, and [illegible] to believe [illegible] will come on the air as MP4TAC/VS9. When he does operate he will be on with about 50 watts, most of the time, but [illegible] 200 watts on and he will be [illegible] inside the Oman border.

Now Ian MP4BBW is going on a sideband expedition to Das Island in June for August time. [illegible] to go to Qatar for [illegible] days [illegible] three weeks in July, and if possible MP4DAA will go with him to Das Island so that the station will be able to operate on SSB and CW. Now the other thing about it is, there is a transmitter (KWS-1)([illegible] what he said, [illegible] KWM1-)that has traveled in the far east and belongs to W6UOU. The situation isat the present moment, if the transmitter can be located he will have [illegible] SSB, and very shortly afterwards if [illegible] the same transmitter can be shipped across to VS9OM to put him on SSB because at the present moment he is only running 8 watts on CW and Fone. And then after that, if nothing----qrm----, the same transmitter goes to Afghanistan for ssb operation. Tks to W2ZX.

VU2CK says that he does not know of any Nepal stations being licensed.

Not enough money has been donated to finance the trip of ZL3DX. However Randy, K4LNM stated that he would underwrite the amount needed in hopes that enough would come in after Win gets on the air. Some of the fellows who have just overlooked a little financial donation, now would be a good time to mail it to K4LNM. Here is the operation dates and freqs for Win: May 14, 15, 28, 29--ZM6AC

[illegible] are May 25th- VR5AC

May 20 ZL3DA/ZK2-One day only an possibility only SSB.

CW Freq: 28040 21040 14040

SSB " : 28540 21410 14306 and 309. He will say when and where to call him on AM Phone. Win states he will operate mostly CW. Frequencies [illegible] by the condition of the band.

After unloading all salvaged gear in St.Thomas,Danny Weil flew to Dayton to attend the Hamvention on May 9th.Some progress has been made towards YASMEEN and about 7 "W" would put him on the road again.ZL1AV,now visiting in the states,can accompany Danny on his trip should a boat be obtained within reasonable time.His presence would assure Ham tickets for such spots as the Tokelau's,Kermadecs and any other spots under New Zealand jurisdiction.There is also room for another Ham on the Yacht, preferably an American.Should anyone wish to make a substantial contribution towards YASMEEN it is possible that this contribution could be repaid at least in part.At the present moment Danny stands ready to speak before any Radio Clubs or other gatherings upon invitation.Such dates may be coordinated via QSO with KV4AA who is on nightly,14082 KC. between 0100 and 0145 GMT.Please act now. Thanks, Glen Spenceley,KV4AA

Dear Bill,W7PHO:

I know that you have a lot of reasons to be angry with my silence.But,in a few words,I go to describe you the cause of that absence.The postmaste general is going to Lisbon and I have taken his place in the meantime. The office is fighting with a terrific shortage of staff and so a big lot of work is colapsed on my back.Afterwards I have got a bad infection in my two ears that has occasioned a sickly state nearly parmanent which has taken out the remainder of my aptness,a little affected already by t long stay in a hot climate.When W friends have advised me of the remittance of a generator I have made a bad mistake because I have understood the generator was for AC supply.So,I have actied without consideration and have dismantled my rig in order to change it for that kind of supply. After arrival of the generator I have noted that it was for 6 volts DC and the sickness has not permit me to reassemble the rig.Notwithstandin I will try to build a little transmitter for the CW boys and with some sacrifice,make a few QSO's with the W boys in payment of the kindness always reveived and never forgotten.I am thinking go to Lisbon where, during my holidays will be possible come into a hospital and receive a g good and convenient treatment.Later on,from there and after a balance of my pecuniary resources I think looking for a not expensive power equip ent-transmitter and receiver,new or in second hand-for my new stay in Timor.I suppose you will be ready and help me in this matter for which I will write you from Lisbon.The QSL cards of all the W boys that I have in delay will be sent by air mail.Thanking you and the fel ows for the generator and excuse my lack of attention.

Yours very truly,Ruy,CR1ØAA

(Tks to W7PHO and also W6YY who sent us a similar letter.)

NEW EDITOR!

Starting with the next issue your new editor will be C.M."Sandy"Sandidge W5IAH,P.O. Box 227,Kerrville,Texas.
We have really enjoyed out term as editor(s)and I know that if you give Sandy the support you have given us you will have an even better bulletin. One of the things that kept us going was your understanding.The first 4 or 5 issues were really tough.None of us had ever seen a duplicating machine and I doubt if any of you have seen a address-o-graph like the one were using.It was made in Holland about 30 years ago!The ribbon is completly worn out(years ago)and it takes two men to run it.Any way, considering all the goofs we have made we have had very few complaints. We would also like to thank,PA0FX,W6KVI,KV4AA,The Northern California DX Club,The Southern California DX Club,The DX Club of Greater St.Louis, or their cooperation in exchanging their bulletins.(Will the above mentioned please change the WGDXC mailing address to W5IAH).

FLASH-Have direct info that "Ted",W2AUW is shipping a KWM1 to LA2CA.He will start operating June 16th from IFNI. More about the freq. and QSL's later,when I get the info from Ted. DE-K2OAH.

*

Notes from W8GZ:KH6OR is QSL manager for YA1PE,Paul Bedford,and needs help in getting some QSL's printed for him.He has bought 200 himself, estimates will need 1000.KH6OR works YA1PE daily 20 meters AM only and logs vir air mail.Will arrange skeds for any West Gulf DX member at any hour.Suggest you contact KH6OR direct 0200 GMT any evening at 14200. DE-W8GZ

*

I cannot send out any QSL cards for any of ZL2DX "Min" operations until I get his logs.I probably won't get any of his logs until he gets back home in New Zealand.Please inform the boys that a self-addressed and stamped envelpoe is necessary,if they wish to get a card direct.All cards that come in without the above will go to the burrzu.

LA6VC and other Norwegian amateurs planning SSB operation from both Spitzenberg and Jan Mayen in July and August. de W7IAA/3

KA2CA operation from IFNI starting June 16th using KWM-1 SSB only.

XE4B, Socorro Island, supposed to be on from June 20th to 30th on all bands and all modes. de "TIP-OFF"

OK7HZ should be about to pull out of ZA with very few W/K contacts reported. All operation seemed to be SSB and not much of that.

ZK1BS will be QRT about the middle of June for a six month leave of absence. de W1WDD

Welcome to new members W4FBZ, K6EMX, and K6CQM. W7IAA/3 QTH for the next year or so is: Golf Club Road, Newtown Square, Pa.

With an even half-dozen reports received the past week, this first effort on the Bulletin sure looks small.

My dear Al, (W4QCW)

I was in QSO and I read your letter only today, so excuse me for the delay. I must stay now two years in Mayotte Island. (he had previously said he would move to Anjouan in May) Here I can use electric current only 3 hours in the evening - 15 to 18 GMT. At this time conditions are not good with USA and wherefore my contacts with W stations are rare.

I hope to use a G4ZU antenna in 3 months and to be able to work more easily the stations on 21 and 28 mcs. No trouble in the Comoros by the typhoon. It was very strong in Madagascar only, and the ZL antenna of Vic, FB8BC destroyed by the hurricane.

I hope you can understand my poor english and please excuse my mistakes. hi!

Very best 73's Bob and I hpe cuagn
Andre.

Received from W3LMO a rules sheet for "1959 Beira DX Contest" sent to him by CR7LU requesting publicity. Contest period August 15th to 25th. If more copies can be obtained they will be a vailable on request.

VE3EGD/SU and /DXC going on leave but will be back in August and will try to use up 1,300 QSL cards from VE3EGD/SU. He will make DXC trips in August and one in October to ZL6. He will operate on phone but will listen for SSB. Watch out for this one. He will be on all bands, 80 15, & 10. He will work all comers. de K5MDX

Ron, W1YIS was active June 16-19 from FP8BC on St. Pierre. He was working 15 phone and CW, on AC subjects. If you worked him QSL to his home address. He also operated as W1YIS/VE1 from Nova Scotia and may go to PEI. He also worked 15 CW and 20 CW and AM. de K5MDX

The increase in reports sent work is very encouraging. The only discouraging note is the increasing practice of the DXpeditions to work only SSB with occasional CW contacts. Looks as though we CW boys need to do a little missionary work.

NEWS

[illegible]OORRA DXpedition by DL9PF, DL1KP, and DJ2MN as PX1PF starting evening of [illegible] July for two weeks or August 4th. They will use DX-35 and ground-plane [illegible] [illegible]-clock operation. If an Air Mail QSL is wanted he requests two coupons [illegible]d emphatically a self addressed envelope by all means as they hope to [illegible]ke 10,000 contacts. (from DL9PF via W8BF)

[illegible]o info on TOKELAU at this time. Loyd Weber from Samoa is on holiday in [illegible]-land and he is due at ZL5DX to discuss putting a station on air on his [illegible]xt trip to ZM7 (ZK3). ZK1BS arrived State-side July 9. He sez he will [illegible] back ZK in about 6 months. He is getting new QSL manager W7ZAS, but [illegible]1BS only brought two logs with him. They hope to have QSL situation worked [illegible]t on his return home. Also guests at W7PHO were ZL2LH and ZL2UF. (from W7PHO)

[illegible]3AC is now VE9MV and is still operating his old stad freq's of [illegible]40 and [illegible]082 on week-ends. (G3AAM via [illegible])

[illegible]1PAR will be on from Boy Scout Jamboree beginning July [illegible]th and a special [illegible]rtificate will be issued for each contact. (DU1DR via K1BGB)

[illegible]2FR spending most of his time on DSB. (W2CTN via K5BGB)

[illegible] WDD had letter from W1WPO advising that IL-AIM will not count as separate [illegible]untry. Letter also states DL9MD still has no [illegible] license. [illegible]GCN, anex TA, was advising them on what to do about it.

[illegible]T2AH recent SSB activity was a one shot deal with borrowed [illegible] and he is [illegible]w back on AM. (W9WIO)

[illegible]me get OK2AR QSL's without paying but [illegible] [illegible]sing if QSL is wanted a buck must be forwarded.

[illegible]5GFB received direct QSL's from PY0SA and EAAD95. K5BGB received XS4BB

[illegible]lcome to new members K5KWC and W6NNV.

QTH's

[illegible]W0WP - USASG, APO 225, New York, N.Y.
[illegible]7AFN - Cicero G. da Silva, Praca General Dutra S/N, Fernando de Noronha.
[illegible]V1US - USTDC - MARC, APO 63, San Francisco, Calif

[illegible]hose members whose dues expire this month will find a red X on the address [illegible]f their bulletins. If you have sent your dues and still find the X do not [illegible] alarmed. Jack is on vacation til August [illegible] and you will continue to get [illegible]ur bulletins anyway.

NEWS

Due to delayed passport, VK5BV's operation from CR10AA sceduled for August 20th from latest information via W4KVX's "DX". If the passport is not received by that time the expedition will have to be cancelled. W9VL reported working a station signing CR10AA at 2230 GMT on the 9th on 14030. Beam was 35 degrees (long path) and signals S8 at times.

ZC6 expedition cancelled. Apparently K2IWD (Merle) is get United Nations approval to operate ZC6. (W5UKK)

LA1NG/P listens close to operating frequency. Two or three kcs. down from the trick. Shows up around 0000 and 0430 GMT along with LA3QQ both seem to be operating same rig. ("DX press" from V.U.R.O.N. quotes LA5KE as saying both stations working CW and that LA3BO/P also will be up SSB.) (W5UKK)

VP2FG usually answers way down the band (14005-10) even though he transmits on high end. (W5UKK)

K4AMR/4 states that he has plenty of SVØWEC QSL's and his logs and will be glad to supply any missing cards. Hal's address is 2414 Cone St., Mobile, Alabama. SVØWE is now back in the states leaving only SVØWB on Rhodes. Had left his SSB rig with John. (W4QCW)

From VK2ADV via W5ALA details of the accident to Roy Baty, ex-VR3A. Roy was helping to moor a cable ship when one of the mooring cables snapped. If it had hit his body instead of his legs it would have killed him. Roy's wife had been taken to Australia just a short time before the accident to await the birth of their first child. Roy was rushed to a hospital in Australia not knowing he was being taken to the same hospital as his wife. They were quite surprised when they happened to meet in the hospital after Roys legs had been repaired and his child born. Mac, VK2DV, says Roy will ship out for VR2-land in November. Jack, W5ALA felt that due to Roy's visit in the U.S.A. that his many personal friends once might be interested in this story.

ZB2JJ sends thanks via K5ADQ to the W/K stations worked from ZD6 and for their neat operating. He had 704 QSO's.

3BA QSL's can go via VQ8AL who is her brother. (W5CEW)

TF3NG/P (Egil H. Reiner, Jan Mayen Island, c/o Norwegian Embassy, Reykjavik, Iceland) (W4QCW)

HE Box 2387, Dar es Salaam, Tanganyika. (K5ADQ)

QSL to EA3GF.

late as August 14th according to letter from W1TVQ, the KWM-1 used by WØUQV San Marino had not been received by VQ4ERR. Also overheard the same here le listening around the band so it appears that the VQ9 operation will be lled to one KWM-1 only. Vic quotes Lee saying they intend to stay at least days and possibly three weeks.

those who are near enough to attend, the South Texas Emergency Net holds r annual convention in Kerrville August 28-29-30. Registration ($3.50), reservations can be handled by Cedric Tolar, W5FNH, c/o Blue Bonnet Hotel, rville, Texas. Should there be enough DX'ers present, space for a meeting be arranged.

following members dues expire this month: K2CJN, K4GPQ, K9OZA, W2UED, CH, W4TN, W5UIW, W5EUO, W5LFC, W5LXY, W5PSB, W5TJ, W5TPC, W6YY, W7ZAS, F, W8DUS, W9AMU, W9ELQ, W9YFV, WØELA, WØMCX, WØNTA, WØPHR, WØVDQ, CO2BL d dues to Jack Swanson, W5PM, 9015 Linkmeadow Lane, Houston 25, Texas.

Permission is granted to reproduce any part of the Bulletin provided full credit is given to the Club--

The following information from VK3OK via K2MQA, W5UXO, W5LGO & W1PM concerning CR10. VK5BV has returned to Darwin. No operation permitted in Timor due to internal trouble. CR10AE's license has been temporarily withdrawn. No activity until further notice.

More on the 4X4/ZC6 situation. Bob, W5UX forwarded card he received from W1WPO advising "Your 4X4DK card counts as Palestine." W2ZX reports "I didn't believe it, but in a recent note (8-20) Del White reaffirms that any 4X4 in any part of old or new Jerusalem is ZC6!" Also W1WDD reports the same from W1WPO.

Aklun: Island DX-pedition by OH2XX/0 and OH2YV/0 from 2000 GMT Sept 17th to 1400 GMT Sept. 22nd. All bands AM phone and CW. The following are times and frequencies: 3525 (2200-2300 GMT), 7010 (2300-2400), 14040 (0000-0700), and 21040, 28040. Phone frequencies only listed as 14150, 21200, and 28250. (DX'press)

"If the WPX boys are interested, the first GB3 will be on towards the end of September for about 3 days, operating phone and CW all bands with call sign GB3RI from Rathlin Island off coast of Antrim, Northern Ireland (G3AAE)

W2ZX reports receiving DXCC credit on August 14th for EA9DZ QSL. He also has received cards from FY7YI, VP3RO, TZ4AB, TM5AC, ZS6NI, & FD8XU.

VS9OM will be no longer Rockbound since he will be VFO in a few weeks. (W1WDD)

FT5AW is on from CW at 0900 to 1200 GMT daily looking for Arkansas (W5INL)

W9NIJ received VS9OO QSL in 14 days via Adrian Tellerri, Mesillion, Ohio who stated that cards from VI4AJ are arriving ok and are being forwarded.

In QSO with EA3GF I requested specific instructions for EA9IA QSL's and he said to send via U.RSE. with IRC for direct reply.

Look out for the currently active FG7XG. K6ENX reports that while he beams ok from there, some of the Eastern boys say his bearing is not right for FG7!!

K5DJU received QSL's from PJ2AC, PZ1MR, VP3RO, FY7YF, DZ8EQ, & ZK1DS.
W5VWT received QSL's from CQ5IM, VP3RO, PZ1MR, FY7YF, FO8AX, & ZK1BS.

The following members dues expire this month: K2IJN, K2OPQ, K2ORA, W3GHT, W4ION, W4TK, W5DXM, W5RSD, W5LRQ, W5LXX, W5PSE, W5TF, W5TPC, W6YY, W7JAS, W8DF, W8DUS, W9AMU, W9ELQ, WØYTV, WØELA, WØMCX, WØNTA, WØPHT, WØVSL, Guest. Send dues to Joel Swanson, W5PM, 9015 Linkmeadow Lane, Houston 25, Texas.

[illegible] one of the members have shifted the copy to leave room on margin for punch for filing copies. Hope it suits all. Compiling [illegible] section would be much easier if the most legible possible copy is submitted, preferably fone and cw separately as well as bands. Listings over 40 days old in publication will be used as space permits.

The club has completed arrangements for you to purchase club QSL cards at a nominal price. The card is white gloss stock. The cut is a replica of the one on your membership certificate and is the same color. Your call and [illegible] in Black. On the reverse side is a universal "dope" [illegible]. It is indeed a very nice card! The club is not selling the cards and therefore cannot handle your orders. Send your orders to HAM SPECIALTIES CO., P. O. Box 3023, Bellaire, Texas. Your cost is 100 $3.95, 200 $6.25, 500 $10.50, and 1,000 $18.25.

Government of Bhutan
Radio House (AC5PN) Bhutan
Dechen Choling, Thimpu 8/8/59

To: W6YY, John Knight, 4710 Viro Road, La Canada, Calif. USA

Dear Friend:

I am so glad to receive your QSL for our phone QSO and your very kind letter. It is very very nice of you to offer the rig of W2KUW for QSO used on a loan basis. I am so grateful to you for this and your intentions are so very highly appreciated. At the same time I am sorry to tell you and how can I explain to you the difficulty in bringing the rig here. They are liable to break down in transit. Suppose they arrived at Calcutta it has to go by air to nearest airport of India to Bhutan. From there it will have to go on ponies or on man-carriers for at least 12 days and by the time you will get back the set will be one or one and one half year. If the set is so kindly presented to Bhutan for always used, then there is no worry - all arrangements will be done at government expenses. I am a government servant, directly connected to the King. I can do arrangement in my official capacity.

AC3SQ became AC5SL. I requested the government to have him here as we need good technicians here. He is preparing his station and will soon be on the air. I have informed him about you accordingly.

So please forgive everything if I did something which you don't like. We don't like war and we are peaceful country and know all of you the same.

Please convey our very best wishes to all of you from this country.

Your very sincere friend
/S/ Chhawana AC5PN

Above letter received 8/26/59 for 7/1/59 QSO.
The offer was made from Ted, W2KUW to lend AC5PN the KWM-1 rig which Ted sent over to FD8DZ and to EA9DE/PX1DE.
Anybody have any inside path to any of the manufacturers to get some large publicity for their firm by presenting an SSB transmitter to the King of Bhutan? (if so, I will make the necessary transportation arrangements). de John, W6YY

From VE8QG/SU via W5INL --YA1P8 has returned stateside, however YA1WW is active on 14mc. AM.

In QSO with W5LGG, VR3AC says he is on only one hour per day due to military duties. He says the suffix "C" stands for Christmas Island. QSL via VR2AS.

G2MI has the logs of G3FYR/VS9 and VS9AI. Anyone who has not received a QSL may obtain one from Art. Cards will be sent via the Bureau but will be sent direct if IRC's or currency for return Air Mail is enclosed.

K2OEA received letter from VS1FW/VS2FW/VS1BU/G3NRC who says his ship - Sub HMS "ADAMANT" will visit New London, Conn. from Oct 12 to 21st and he would like to meet DX friends around that area.

VE9OM is now on 28 mc. fone. Heard calling CQ Denver at 2100GMT.(KL7AAI)

W0DVN reports that VQ9AIW made 1946 contacts fone & CW. They opened up on August 20th at 1855 GMT on 14mc CW. Bill says they have plenty of QSL's to cover every contact and that all will go direct. Those who sent SASE will be sent first, then the others at Bill's expense. He expressed the hope that those who thought they had a contact will not be mad at him personally, but only logged contacts will be confirmed.

ZS6IF will go to ZS8-land from 12 to 20 December. Operation will be CW on the low end of 14 and 21 mc.

Look for Danny in a few days as VP7VB. He will be there about 10 days and probably operate all bands. 0100 GMT, Friday on 3505 kcs aurs.

In letter from AC4AX to W6YY, Saul says he is going to install his 3-ele. soon with a rhombic antenna and needs a B6610 Technical Manual. If anyone has one or knows where one may be obtained please contact W6YY.

Mickey Unger, W6YIN sends his thanks to all the fellows who remembered him during his illness which started with cancer and was followed by a bout of hepatitis. He is now making rapid strides to full recovery and learning how to use an artificial leg. Is now back on the air a few hours a day and using a TL33 Tri-Bander since he can no longer maintain the elaborate antenna system he had before.

From W3RIS via W5CEW---"On December 19th there is planned a DX-pedition into VU4, VU5, and AC5 land. The calls to be used are VU4DX, VU5DX, and AC5DX. Equipment will be TA-12B, VF-14B, and VO-1A. They also use Ted Henry's (W6UOU) KWM-1 transmitter."

VE3AEM/MU is arriving to take VE3EGL/MU's place when he leaves in about a week. VE6QG/SU also is leaving in 30 days. (K6CQM)

The following quotes from letter to K6CQM from ex-VS5JA. "Bob, I lived in a real paradise in Brunei compared with this place anyway. Here it is hot and dusty - a desert really, living conditions are very poor and social life still. If only I could have some radio, life would perhaps be tolerable but it seems that its impossible - why, I'm in such an isolated part that I haven't the idea how to go about acquiring about a ham licence. I dont even have a RX as since leaving N.Z. I've been completely out of touch with ham radio. So now I'd like to be back in action as VS5JA. I'm a geologist on what is perhaps the worlds largest potential oil field, it's being developed at the moment. Three good wells were producing as much oil as hundreds of wells did in Borneo. Remember me to the XYL and over there. Cheers, Harry."(H. McQuillan, Resident Geologist, c/o I.O.E.P.C., Gach Saran, via Abadan, Iran) P.S. He does not have his VS5JA log or cards with him.

From Vince, W3XO--Has QSO Jays, ITUM and he told me Ted Henry's 10 watt rig will go to VQ6AB. So far he hasn't heard from VQ6AB. He worked 65 countries and over 300 contacts on SSB. He is using a ground plane antenna and 75A-1 receiver. When I worked him he was on air pseudo using DX1COB. He is waiting for SB10 generator. A 3 element beam is on the way donated by W4ENE.

Tom, W5HDS reported this week from Chicago on the FB session of the WGDXC union we held last weekend. Total attendance around 120 with many WGDXC members present. W5FXN/9 also reported attending.

Regarding VQ8APB who was recently on from Carajos Island, about 250 miles south of Manaus in central Brazil and was not in and he was there for only a short time. It is rumored that VQ8BBB is at present at the same place and active on 7 mc and may later be on 14 mc.

Further information from W6BY on VQ8AFZ who was VQ8AF [illegible] on Carolina Island only a few days. VQ8AD has completed a new 7 & 14 Mc rig and is shipping it to Herve Figon on St. Brandon who will be on the air as VQ8HEM, possibly by October 2nd. QSL via VQ8AD, Box 227, Port Louis. No word as to whether this will count as a new one or not.

Free QSL's via W7HET information that UA0KHO who has been working around 14050 is located on Wrangel Island.

VS9CC is a new club station on Sumatra Island with VS9OM. This info from letter to W6BSY from VS9OM. (K6CQM)

Cliff, W8GCN has left for a new job in HZ1-land. (W8YIN)

Via W8QFX info that PY4TK acts as M.C. for PY7SC on SSB. (W8YIN)

[illegible] is several hundred cards behind in answering QSL's and requests patience as he intends to answer all, even 2nd, 3rd, & 4th contacts. He is building QRO rig also. (W5PM)

ZS6IF still planning trip to ZS8 for December 12-20 with around the clock operation in the lower 10 kcs of 14 & 21 Mc bands. He will be on the lookout for WGDXC members and Sec. W5PM is sending him up-to-date membership list. (W5PM)

We received this week a two and one half page story of the XE4B operation from XE1H. Briefly, the first QSO was with XE2FL on SSB at 1606 GMT on July 6. W6VVR was first CW QSO and XE1BBU first AM. Last was K4TOA at 1200 GMT on July 10. During the time they operated 9½ hours and 50 minutes with 2,024 contacts in 45 countries, 356 on AM, 884 on SSB, 782 on CW, and 2 on RTTY. They wish to thank all for the fine co-operation and are looking forward to a repeat performance in the future.

W5BUK received his XE4B QSL via W5KC. It was stuck to Vince's!

W5LGG just received QSL for QSO with TA3AA in November 1949. The op at TA3AA at that time is now KP4AIO.

W5ABY received QSL's from VQ8APB and LA3SG/P.
WØUQV received QSL from FR7ZD direct.
[illegible] received QSL's from [illegible], [illegible], and [illegible].

W5OLG and W4TAJ are working on a receiver fund for Tom Christian, VR6TC who because of an emergency appendix operation and the expense of the trip to New Zealand for hospitalization, was forced to sell all his equipment. Several of the Club members have already contributed and anyone who wishes to help a fellow Amateur in time of need may send their donation to W4TAJ at RFD 3, Jonesboro City, Tenn., or to W5OLG, Box 261, Graperine, Texas. It should be understood that the Club is not sponsoring this project but is glad to provide space in the Bulletin to spread the word and keep everyone informed of the progress.

Tom must work until all medical expenses are paid and he has the fell for passage home. This will probably take until March of next year. He has promised to send back the CW or Code and to be more active in the future. John, W4TAJ has offered to keep an accurate record of each donor and arrange deals for each one. He also offers to personally handle the QSL end of the matter.

"Jack Swanson, your Secretary apologizes to the following members whose names were left off the September 1960 membership list: [illegible], [illegible], W5AFM, K5AHZ, K5BJU, K5LZO, and W9OMZ. Your call will be included on all copies sent to foreign hams. A new membership list will be published prior to November 1st."

FOR THE BENEFIT OF THOSE WHO HAVE ASKED - OUR DUES ARE STILL $ a year SURFACE MAIL, $7.50 AIRMAIL, and $12 MEMBER (AIRMAIL).

As mentioned last week, this issue is being addressed on a new machine and every effort has been made to transfer the addresses without error. The new plates are very easy and inexpensive to make. The old machine was still operating at but one very old and foreign make and if it had broken down would have put us out of business a week or two at the least. In the past the Secretary had his records while the Bulletin's records were the plates of the address machine. It has been difficult to keep both sets of records in agreement and the errors which were bound to occur have caused some misunderstands in a few. It is hoped that the new system will help us do a better job.

You will note a number to the right of your address which is the month your dues are due. If your copy goes Air Mail the number will be followed by "-A". At times Bulletin space is at a premium and this will allow discontinuation of listing of expired copies that are due, saving that space for [illegible].

FOR SALE : Ex ARC transmitter [illegible] receiver, [illegible] all power supplys ready to go. $1000 or 32$% separate, make offer.

VQ8BBB made appearance on 14102 about 1500 gmt on October 1st from reports of K6ENX and K6CQM. His name is Merle and QTH Carajos Island. A few have received QSL's from VQ8BB and as more are on of suspicious ones sends to ARRL maybe we will have word if this will be a "new one".

W5BUK worked Danny at VP7VB on October 4th and Danny told him there is no truth to the rumor regarding his license troubles.

Bill Tagan, WØDVN writes that they received the VQ9AIW logs on August 14th. In one week all cards had been made out and mailed. He asks to relay the information to the gang to wait four weeks and if then no card to write directly to Lee, WØAIW who will have the logs back by then.

"AC4AX writes W8GL that he is all OK and things are quiet in Lhasa. He has a BC610 that he hopes to get on in the very near future. QSL cards have been received from Vinty and will be sent out as soon as all cards are out five months for delivery. Shankar is in need of an assortment of small tools, Tech Manual for the BC610 and sure would like a Tri-Bander. Any ideas?" (W5KBU)

K6CQM reports VR3V is a new club station on Christmas Island. QSL's go via RSGB.

W5HDS received QSL's from VQ8APB and VQ9AIW.
W5INL received QSL's from VP2LO, VQ9ERR, VU2NR, and VP2KJ.
W5BUK received QSL's from VP1SS (cw).

The following members dues expire during October: W1QM, W2CR, W2HJR, W3ECR, W3WV, W4DQH, K4EHA, K4EJO, W4HYW, K4LNM, W5ECK, W5GXP, W5NUT, W5RS, W5RVI, W5UTZ, W5UX, W6VB, W6AM, K6[illegible], W6[illegible], W8[illegible], W8[illegible], W8SDR, W9[illegible], W9[illegible], W9[illegible], W9[illegible], W9[illegible], W9[illegible], W9[illegible], W9[illegible], W9[illegible]. Dues are $6 per year, $7.50 Air Mail, $12.00 foreign Air Mail. Send to Secretary Jack Swanson, W5PM, 9015 Linkmeadow Lane, Houston 25, Texas.

The QTH list sent out in September was compiled from information contained in issues #22 to #35. A number of extra copies are still on hand for anyone who needs one. If any errors are found please report so corrections can be made.

"I have just finished a long QSO with RAEM and Ernst re-iterates - No hams on Wrangel Islands. UAØBD QTH is Severnja Zemlya Sound. UAØKYA is in Kizil City, Zone23. Both UAØBD and UAØKYA are on 14 mcs. (W6RW)

"Pista, HA5BI, calls attention to HA DX DAYS on November 14 and 15. No formal exchange is required; just work 'em. A diploma will be awarded the winners. With the SS pandemonium at full blast, it seems unlikely that much DX will leak through!" (WØDSP)

W6AM worked HB9QP/CR8 at 1625 gmt on October 9, 1959. HB9QP/CR8 was working W7 stations who seemed to have the skip so W6AM could not raise Goa on SSB. Then W6AM called on AM and raised Goa first call, asking to switch to SSB. The SSB was reported one R louder than the AM, yet the SSB could not raise him without AM paving the way! (W6AM)

K4PDV hopes to operate on ZD8 during the contest around the end of October on SSB. He will be there a week. Hope this is not a dud like the batch of last June and July. (W1WDD)

Had a QSO with Mahmud, SU1MS and he told me that he is very anxious for a KH6 QSO. He is looking every day on 14050 CW at 0400 gmt for any KH6 - or, if any KH6 would like to write him for a sked he would be very happy to oblige. (W2HTI)

One of the local 6 meter boys, W5UNH reports from QSO with HC1FS that VP4BL will be on 15 and 6 meters about the end of October, Phone and CW. Also that HH2Z and FM7WU will also be operating on 6 and probably also on lower bands about the end of October.

W5BUK received QSL from OH2YV/Ø.
W5AZB received QSL from PX1PF.

VS4FC said he would be on every day around 1500 or 1600 GMT looking for W/K stations. K6ENX reports hearing him several times in the past week and usually on same frequency, 14101 kcs.

[illegible] reports hearing VQ8AD calling W6YI [illegible] has not been on of late due to some trouble with his generating plant, but that he might be on at any time.

VP4WD will be on Tobago till December. His RX is a very poor one and when the gang pile on he can work no one. W2FZY is working on a deal for a better receiver for him if it can be done in time. Any one who wished to assist may contact Ed Chinnock, 8 Ward Ave., Rumson, N. J.

VQ6LQ is now on 20 SSB with Ted Henry's Argonaut. (WØQVZ)

RA1DZ said his new call sign was issued on 1 Sept 1959. (W9WIO)

Reports have been falling officers have kept us on the last few issues waiting for answers. Don't worry if you don't see it in. Regarding change of call of Editor - same Editor, but FCC re-issued old call which was lost after the war.

W5INL suggests a [illegible] DX Club members might be interesting when extra space is available in Bulletin. Send em in if you are interested.

The following members dues expire in October: [illegible] W3WV, WØBQN, [illegible], W4MYW, [illegible], W5EAK, W5XXF, W5[illegible], [illegible], W5URU, W5UX, W5VU, WØAM, [illegible], WØKJU, W5BRA, [illegible], [illegible], W9ABA, W9ROK, W9UXO, W9WOX, WØKLY, WØUUV, [illegible], [illegible]. Cal, W4ANF reports via W5CEW that he was QSO VS9OC on A-3 and has received a home made card from him with a list of W stations worked. VS9OC wants to QSL all contacts but does not have any card at this time.

ZS9T has told Sec. W5PM that he has now QSL'd all WGDXC members.

MP4DAA will operate from Muscat with the call MP4MAA sometime in November and hopes to operate from Puriz Oasis also with same call in November. He promises to let us know dates and frequencies. (W5PM)

W4QCW reports that W4IYG has received the HB9QP/CP8 logs and cards will be out in ten days to two weeks time.

K5MXD wishes to notify the WGDXC members that he will start handling QSL's for ZK1AU around March of 1960. Eric is leaving the Cook Islands in December [illegible] he gets back he hopes to have a DX-40 and VFO and is constructing a tri-band quad. At the present all his QSL's are up to date.

VQ8BBS was off from October 1st to 22nd because of trouble with the Island's 10 KW diesel generator. Herve is a permanent resident there and hopes to be on regularly now. (W6YY)

WD8UM received QSL's from VS9OM and VQ8HE.

[illegible] already renewed, send to Secretary Jack Swanson, W5HM, 9015 Linkmeadow Lane, Houston 25, Texas. Dues are $5 surface mail, $7.50 Air Mail, $[illegible] Foreign (Air Mail only).

VU2AHC is stated to be active from [illegible] Island around the middle of December. The call has been issued to VU2AK for the expedition. They plan on being there three or four weeks. A KWM-1 will be used on SSB and CW and they plan to have a rig for AM also. [illegible] has shipped them a tri-band beam. All QSL's are to go via W8PQQ with SASE. Walter, W3RIS is treasurer of the operation which will cost over $600. Anyone wanting to help may send their donation to him at [illegible], Wassel Drive, Export, Pa. If the trip does not materialize all money will be returned. This information from W3RIS who adds "The gang may be interested to know that K4LWM and myself had about $30 left over on the Vegas trip. $25 of this was sent to help get the VU2AK gang [illegible] for a TA station and $10 has been sent to Walter".

VK3AMX is going back to Lord Howe Island November [illegible] (he was there last November). This time he will operate from [illegible] according to VK3[illegible] in letter to W6NTR. He also included QSL information on VK Antarctic stations which are listed in QTH section.

[illegible] reports via K6CQM that he is on daily between 0[illegible] and 0[illegible] on 14093 kcs looking for new countries in the Pacific area. He is on same frequency after 1835 GMT. This will be his last year at the key for some time as he is going to school in the U.S. next year.

VR3V reports via K6CQM that at the present there are only three hams on from Christmas Island, VR3V, Don - VR3W, Ron - VR3X, Roy. They hope to form a club station in the near future. At the present VR3V is running 30 watts on 10, 15, and 20 xtal controlled. Receiver is an AR-88 with a dipole antenna for 20 and a ground plane for 15 and 10. He hopes have his quad up within the next week. [illegible] and both will QSL only via RSGB but VR3W will QSL direct. VR3V's QSL's are being printed in England and it may be a few weeks yet before he started sending out any cards at all.

W5GNG wishes to advise the gang that he has found 10 more blank FW8AS QSL's and still has the logs. [illegible] out your home made card if you are in the log.

KØDQI advises he has accumulated about 300 QSL's for FG7XG for QSO's dating from August 4th to October 20th. He was QSO FG7XG last of August and the operator "Gus" told Scotty he had appointed him his QSL manager. Scotty has not heard anything from him since.

WØBSK reports he received a 4S7YL QSL for a 1957 QSO from QSL manager KH6BPF who advises he has held regular skeds with Soma since 1956 and that confirmations dating three years back can be taken care of easily. SASE or IRC of course.

SU1IM is presently with a Medical Mission in the desert according to a letter from Ibrahim to W6DML. He expects to be back in Cairo in March and on the air then.

W5OLG reports this week that they have received about $700 so far on the receiver deal for Tom Christian, VR6TC. He says that Tom will spend more time on the air than before, and at least half of it on CW. If you wish to get in on this you can send contributions to Bob or to W4TAJ. All contributors will be scheduled when VR6TC is back on.

K5BGB wishes to advise the gang that he is not QSL manager for VQ1SSB. He has received about 25 cards and has returned them all. If you have worked VQ1SSB or VQ1WVR try the QTH below which appeared in the last issue of DX'press of V.E.R.O.N.

FB8GP is on 21 mc. fone and CW at 1300 GMT. Also FB8YY will be active again in December or January. (FB8CE via K5BGB)

G6YQ would like some help with a TG QSO. (W1WLW)

In response to queries about VQ8BBB, he is located on Cargados Island of the St. Brandon group [illegible] miles from Mauritius of which it is a Dependency. VQ8AP has done some operating there as VQ8APB. No word has been received whether Cargados will count as a separate country.

"DX" reports that JT1AB is requesting that all QSL's be sent to him direct and that he does not have a QSL manager in Prague. His QTH is listed below.

CR5AR also has no QSL manager. From all reports it is useless to send him a card unless you enclose a dollar. Address in QTH section.

Most of the members reporting this week [illegible] conditions. Must have been [illegible] in lonely

VK2FR on Lord Howe Island will operate CW in the CQ DX Contest on 140.4 kcs approximately for the first 12 hours at least. It could possibly be longer but he guarantees the above to give the fellows a chance to QSO this spot. He still operates SSB whenever he can -- usually around 14325 with me -- and I am still happy to fix skeds for West Gulfers and their friends. de ZL2GX

W6UOU says the Argonaut may be in Quatar soon. de W6OSH

W7PHO received a letter from ST2AR who needs Nevada. He says he expects to be on 14 and 21 mcs with 50 watts of SSB before long. He is now overhauling his receiver so he can copy SSB.

The KWM-1 to India for VU2ANI expedition was shipped last Wednesday to New Delhi. The air freight was around $196 for one way. About $200 has come in so far and W3RIS is going to advance about $300 for part of their expenses. Anyone desiring to donate send money to W3RIS. QSL's will go via W8PQQ. de W7PHO

W5OLG would like to know how to get a 9K2AN QSL. Bob has worked him twice, on 14 and 21 mcs, with no response.

ZD2JM has been on vacation at his home in Scotland and returns to ZD2-land this month for another year. K9EAB is his QSL manager and reports he has a number of unclaimed cards on hand. These may be had by sending QSO information with time in GMT with the usual SASE. A QSL with your request is not absolutely necessary. He has all the ZD2JM logs from September 1958 to date. de "DX"

Reports are arriving a bit late for getting the Bulletin out on Thursday. [illegible] from your CW listings. Each station reporting receives a new report sheet with his next issue. Additional sheets are available if needed, use the whole sheet. Thanks.

Following is copy of letter from ZS5RD/7 to W5IML. Sorry for the delayed QSL from ZS7-land. Unfortunately on my return home I had a very bad accident and smashed up my right arm. I spent quite some time in the hospital. The arm had to be operated on to save it. Anyway we are progressing fine now and Doc says within about twelve months I will have full use of the arm again. Well Jack OM I am expecting to go to ZS7-land permanently about Feb/March next year. I do not as yet know what ZS7 call will be allocated to me as yet. I have asked for ZS7P. You can pass the word around to the boys stateside. I would also be very grateful if you could pass the word around that I am in the market for second-hand ham gear for the ZS7 station, AM/CW/SSB, 80 thru 6 meters. If any of the stateside gang have gear to offer for sale they can contact me direct letting me know about the equipment and the price required. Your help and comments will be greatly appreciated. Kindest regards, Peter J. Lamont, ZS5RD/7. c/o 29 Oxford House, 77 Gillespie St., Durban, South Africa.

All USSR stations when operating on 21 and 28 mcs use "R" instead of "U" in the call. The rest of the call remains the same. Three letter calls are newcomer and they are allowed to operate wide band FM.

The secretary wishes to remind the members that he can verify QSO's from Ranger applications. Such verification is acceptable for DXCC credit.

W2DEC, DX Editor of CQ wishes to thank the club for copies of the Bulletin he is receiving. He sent along a supply of WPX application forms and WPX record books which are available for the asking.

W4ORB will be on from Trinidad as VP4WI from 21 November to 1 December. He expects to catch up on QSL chores in December. QTH: Don Compton, W4ORB 1712 Merritt Park Drive, Orlando, Fla. ("DX")

W4QCW received QSL's from OK7HZ/ZA and HB9QP/CR8.
K4RID received QSL's from VE3NW(XU3AC), ZC4AF, LA1NG/P, and W4YY/VI8.
W5IML received QSL's from [illegible], ZS5RD/7, and VQ5CW.

Welcome to our member W[illegible].

From all reports band conditions remain poor. Hope they are good over the week-end for the CQ DX Contest. Lets have a report of your scores next week. If enough report we can send in an entry for the West Gulf Club.

W2ZX reports QSO with VK9AN on 28.235 kcs. AM Tone. November 20th at 1447 GMT. He gave his QTH as St. Margaret Island in the Indian Ocean, near Christmas Island. Gave detailed instructions to QSL via ISWL, giving complete address. Appeared to be an elderly Englishman, not too experienced at ham radio. Quite voluble talker and did not appear to be the bootlegger type, but signals peaked 45 degrees. Mentioned that a G was also calling him on frequency. Said was installing cable there.

TOKELAU ISLANDS: Barring unforeseen incidents, W5PQA, Doc, will pay these islands on SSB and CW about December 23rd. Doc and his XYL have chartered the auxiliary ketch Marora for a twenty day period starting December 15th. It will take them approximately 5 days to reach the Tokelau Islands as a stop at Apia, British Samoa is necessary as Apia is the port of entry for the Tokelau Islands. They will set up operation on SSB, AM, and CW and will remain for a period of approximately 7 days. Doc is air-mailing a NWM-2 for the operations and the VR2 gang are furnishing an 80 watt all band CW-AM rig. HY-GAIN is air freighting them an antenna to Fiji to be used on the expedition. A gas driven generator is being loaded aboard by the VR2 gang with VR2AP being the Major Domo. To fill out the party and give Doc a hand will be VR2DA who is an excellent CW operator. VR2DA will do most of the CW work. Completing the party will be a cook and enterpreter. There is no landing available at the Tokelau Islands so the 110 foot ketch will lay off shore and the operating party and the equipment must go ashore in boats. The ketch was the former private use of Queen Salotl of the Tonga Islands. The authorities at Apia have given assurance to VR2AP that a license will be issued but the call is not available at this time. ARRL has also been contacted regarding the status of Swain Island. If the December 15th sailing is [illegible] there on approximately January 4th. SSB frequencies 14,305, 21,405, & 28,605. CW 14,040, 21,040, & 28,040. AM frequencies to be announced later. All QSL's go via W7PHO with SASE. (W7PHO)

Deane Laws, VK6DL (ex-VR3B) says that his company furnishes the men who staff Willis Island, and he is personally acquainted with all three of the men now there. None of them is a ham and to the best of his knowledge there is no activity there at the present time. He also said that a friend of his had gone into VK-land for Union Trading and hoped to be on the air soon, with the possible call of VK9DL. This friend has never done any hamming before and Deane is not sure how he will make out. He said there was a good possibility he would be going to Cocos Island himself in March of next year. (K6ENX)

HC1JU has been issued HC8JU for [illegible] DX-pedition. He leaves December 20th and will be on as HC8/JU for about 5 days enroute. There will be two operators working 10, 15, and 20, CW, AM, and SSB. They expect to be there until January 10th. (K4TAW-W5LCG-K5MZD)

9N1GW has been on SSB on 14300 to 14320. Operating hours are 0130 to 0600 and 1230 to 1600 GMT. He is Glen Ward, K4GLX and expects to be there two or three years. Runs a Pacemaker into a Courier and a three element beam. Second op Fred says he will be on in a few days with call 9N1FV and others will be on later. Cards for 9N1GW should be sent to Glen Ward, Box 9136, Washington, D. C. (W5KBU-W8UAS-WØQVZ)

VU2SX reports by letter to W5AHV and K5PCH that the Andaman Island DX-pedition by VU2AK, VU2NR, and VU2RN as VU2ANT should be on the air by January 1st. They will work 14, 21, and 28 mcs., CW and Fone.

[illegible] transmitter used by SM5WK/LA/P. It is more powerful and with VFO and he is now on 40, 20, and 15 with that rig and on 10 with a smaller one. He [illegible] leave Spitzbergen around the middle of November. No more mail will reach [illegible] of October, still missing some in the W4, W5, and W7 areas. Has only worked 55 countries.

A nice letter just received with my QSL from Jack Lambert, G3TA, now on an VP4WD from Tobago. Jack is a member of the crew of Walt Disney Productions filming "The Swiss Family Robinson" there. "My chief trouble is [illegible] my hotel here until 1900 L.T. any evening, so if you add up shave, meal, [illegible] trouble getting a QSO with Jack, he explains that he is using a B2 rec- [illegible] that if anyone has a receiver such as S20R, S38, or S40 to sell cheap he would be delighted. It could be shipped Air Freight and the shipping information is on hand should anyone know of such a receiver. Jack will be there until the middle of January. He is using a 20 meter doublet and input of under 30 watts with crystal control on 14032 and 14050. Operating times whenever possible are from 2300 to 0300 GMT with a break of about 45 minutes for dinner. He is trying to forward all QSL cards direct Air Mail when cards are received there but may get a little behind at times.

Last Saturday fire destroyed the shack of W4KVX, publisher of "DX", with [illegible] help Don get back in business again. Nearly all of his address-o-graph plates were [illegible] the Ohio Valley Club in in the process of sending a copy of their bulletin to each of his subscribers, some 2,000 of them. (W8JIN-KV4AA)

K3NPX received QSL's from ES7YT and ZS3T.
W1WLD received QSL's from 7G1A, HB9QP/CN8, LX1DE, and PX1DE.
W5LGG received QSL's from JT1AR, KA9IA, and AP2BH.

OK DX Contest starts at 0000 GMT and ends at 1200 GMT, 6 December 1959. A six figure exchange will be used with the signal report (RST) being the first three, and the contact number the last three -- 001 etc. One point is earned upon sending an exchange and two points upon receiving correctly an exchange; hence three points can be earned for a complete contact. Contacts with Czechoslovak stations earn double value of points. Continents worked during the contest serve as multipliers with six each band possible on 3.5, 7, 14, 21, and 28 mcs giving a maximum multiplier of 24 possible. Entries may be single op or multi-op and one band operation or all band operation. Separate logs must be used for each band and should contain date, time, station worked, exchange sent, exchange received, points, multipliers (with the first contact only).
Logs should include the following statement: "Herewith I declare that I have observed the rules of this contest as well as the regulations of the licensing authority in my country, and that all the data stated in this log are true". Logs should be mailed not later than January 15, 1960 to the Czechoslovak Central Radio Club, Box 69, Prague 3.

W9WIO reports conditions during Contest were best on 21 mcs with 28 mcs second and 14 mcs almost dead. He worked [illegible] countries and 27 zones for a total of 14,874 points on all bands. Only new one for Jim was FE8AH who said to QSL via K1IVT. Can anyone help with QTH for K1ITV?

W9ERU reports the Contest was slow starter but built up toward the end. This also mentioned the unfortunate loss by W4KVX and asks if the Club could help by selling our Bulletin to his list, or otherwise give him some help toward getting started again. Any Club action would have to come from the Policy Committee (W5EN, W5CE, W5FFW, W5NW, & W5GEL). Let them know what you can do. QST's magazine has been an exceptionally good and will have our. It will be sorely missed. Hope it's not for long.

[illegible] worked 21 countries and 32 zones on 14 mcs only. His was a million score with the new Multimode of W5OSW and K5KWC [illegible]. Conditions were not as good this year and our score [illegible] last year.

[illegible] December: W1JOJ, W3LMO, W5CKT, [illegible], W7FB, and W9INM. Dues are $6 [illegible] Send to Secretary Jack Swanson, [illegible] Texas

Latest word from W7PHO on Tokelau trip by W5PQA and VR2DA sets December 28th as definite date the ship Marora leaves Fiji for Nukunono Island which is one of the Tokelau group. Doc and his XYL should have left San Francisco on the 8th and should depart Honolulu on the 13th and arrive in Fiji the 15th. After a trip to Tahiti to take up the slack time, they board the boat for ZM7-land. Their round the world trip takes them to Nepal, Sikkim, and Eastern Pakistan. Getting on the air from these places is another problem. Doc may ship the KWM-2 home from Fiji. Another 40 watt transmitter is being taken along as a spare besides the 100 watter that VR2DA is going to use on CW. VR2DA will use a modified SX28 receiver. Power will be from a one and one-half KW gas driven generator. A thirty seven foot stick will be used as an antenna tower. Bill adds that the trip is costing over $4000 gt including the KWM-2 which Doc bought just for this deal. All donations will be greatly appreciated, however, this is definitely not a Dollar per QSL situation. All donations may be sent to W7PHO with SASE.

Swain Island is considered a KS6 so no stop will be made there (W7PHO)

MP4QAO will operate from Muscat as MP4MAB on 14 mc SSB during week-end of December 12-13. He is usually on in the mornings, long path, beginning at about 1330 GMT. (K4RID)

If you need a card from VQ8AQ, try sending one to G3NUF. Willy is now active using his new G call on 28 mcs fone from 1400 to 1800 GMT. See QTH below (K4RID)

K2OEA suggests those of the gang who have worked 9M.GW not work him again for a week or so just to say hello or give him report and give the rest a break. Do not think this mention will change matters though. Many guys work them the second and third time to be sure of being in the log. Much of the time QRM on the DX makes them uncertain if they had QSO and probably much of the time they cant read the DX sigs well enough to justify their being in there calling in the first place. To be sure a little courtesy in these piles works wonders, and name calling soon leads to chaos.

Enclosed with this issue is rule sheet for the fifth European (WAE) DX Contest courtesy of DL7AA

W5KC reports 210 contacts in 71 zones and 120 countries for an all-band score of 66,784 in the CW DX contest. His 14 mc score was 134 contacts, 34 zones, 70 countries, for 35,256 points.

K4RID reported working 143 contacts in 35 zones and 85 countries for a score of 46,650 on 10 mo only. His is the only report of good band conditions received so far. W8CBL added several new countries in spite of equipment failures.

Welcome to new member W9TKD of Chicago, Ill.

One more issue before the holidays. Uncertain about publishing them as one full on Xmas Eve and the other on New Years Eve which also happens to be a holiday (my birthday). If reports justify it, may try to sneak one issue in between Xmas and New Years.

Art, W1CPP is leaving with W1CJ/3 but will operate from YA and is taking gear and rigs. Rx final will be shipped later. Be on maybe the third week in January on SSB. (W2FXN)

and is again using 500 watts. Ralph, W1CJ/3 will be on as 9N1CJ after QSL's and 2 bucks invested. No money necessary. SASE best bet. (W2FXN)

Radio Club, 6038 28th Ave. S.E., Washington 23, D.C. SASE please. in sacks - to the office!) (WØQVZ)

Jim, ZS2MI succeeded in putting his commercial xmtr on 15 meters for the first time on November 27th. He promises to be active on that band around 19-20 GMT as time and fuel permit. (W4QCW)

[illegible] score for CQ DX Contest of 187 QSO's with 75 zones and 101 [illegible] total of [illegible] points. [illegible] until 15 January to send [illegible] to CQ, so if you worked the contest, please add your bit. The [illegible] been included in the listings for several years.

[illegible] is trying out a QSL from Bill Scarborough, ZK1BS. Can anyone help [illegible] information on who is now his QSL manager or how to get a card [illegible]

Welcome to new member WW3KT of Bala-Cynwyd, Pa.

Since this is the last Bulletin to be mailed in time to reach you before Christmas, will take this opportunity to wish you all a Merry Christmas and lots of DX in 1960. Unless some news is received which would not keep till after the holidays, this will be the last issue of the year.

73, Sandy
